

20th Anniversary English Writing Competition

Champion: P.4A Lam Oi Ting, Katy

< My Favourite Place at School >

You should not miss my favourite place at school which is the garden. It is located on the ground floor of the school. It is a charming place to eat and relax during recess. The garden is vast with many trees and bright and colourful flowers all around. I can feel the breeze and hear lots of children playing and laughing. There are fixed tables and pasties, white chairs and umbrellas that serve as shades. There is a food stall selling snacks. The garden is filled with delightful smells of food and flowers during break time.

I love staying at the garden because it is fresh and peaceful. I often go there to read books. I sometimes invite my best friend, Katie to chat in the garden too.

This garden is a very special place for me. I hope it will be kept forever.
